XRS52

THE NEXT GENERATION

Almost a decade in the making, the new Hunton XRS52 encompasses everything you would expect from the legendary boat builder.

The continuation of an eminent lineage that has produced some of the most exciting and luxurious boats ever built, styled in collaboration with the dynamic superyacht designers Eidsgaard, the XRS52 defines the future of Hunton and the next generation of luxury powerboats.

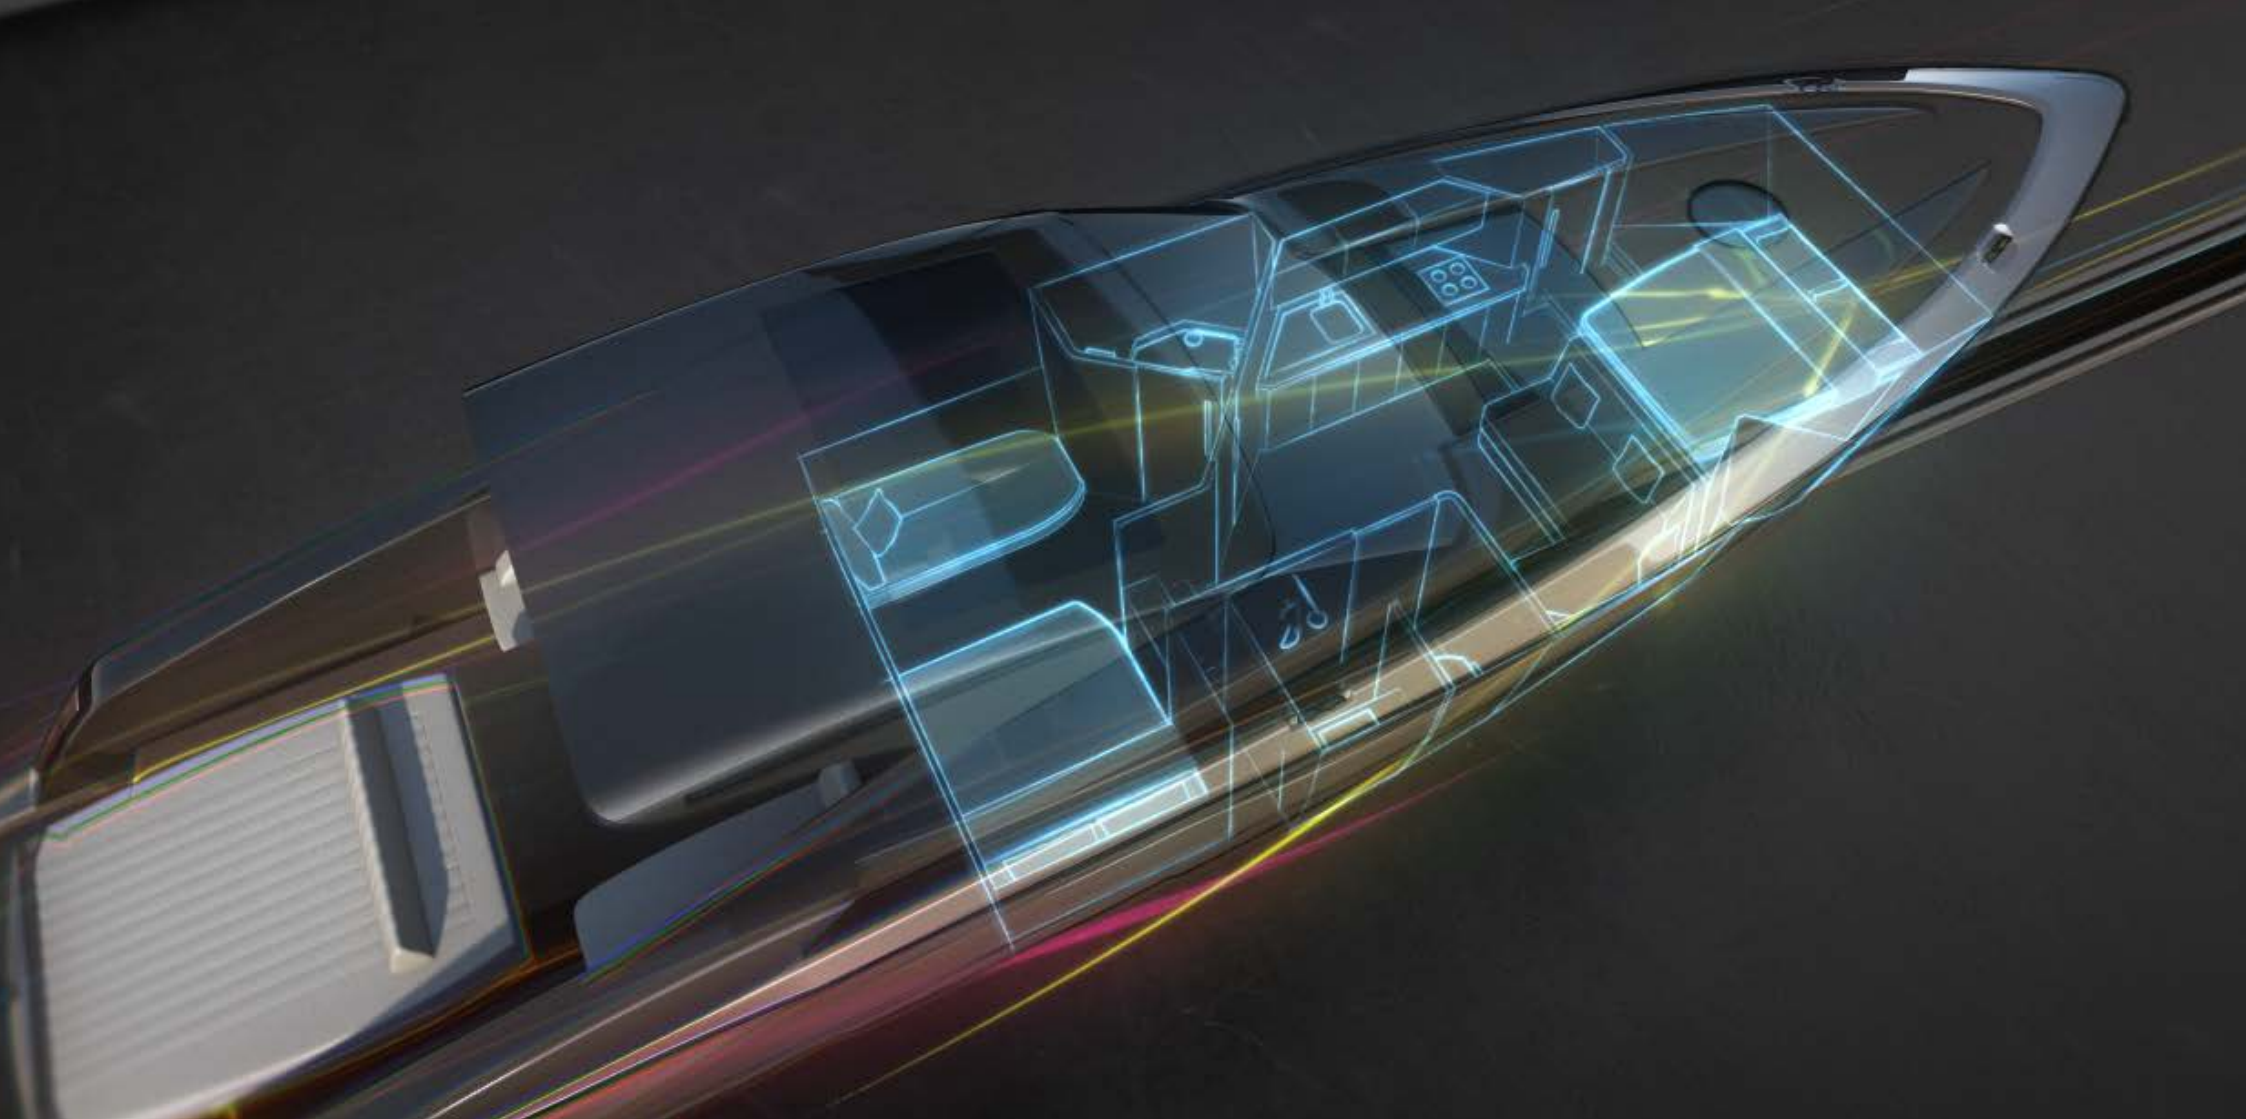

Combining the best of British design and engineering, the XRS52 offers a unique blend of artistic creativity, technology, craftsmanship and excitement.

With a choice of hardtop or open cockpit, twin or triple engines, petrol or diesel propulsion, 2 cabins both with bathrooms, modular cockpit seating, state-of-the-art electronics and a top speed of 65 knots, the XRS52 is an exciting new breed of luxury cruiser.
